Further information [here](#)

A non-fiction card set on the popular topic trees in a handy format to gamify one's trips into nature.

What do the leaves of the common beech look like? How do you recognise a Norway maple? This card set with beautiful, detailed illustrations and factual information about trees is the ideal companion for a discovery tour through nature, the local park, or your own garden.

Creative People:

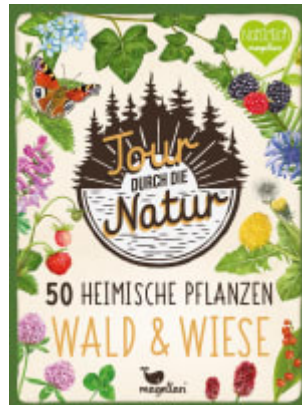

Illustrator: Miriam Fritz was born and raised in Cologne. Even in kindergarten, she loved nothing more than getting to choose new coloured pencils from the store room. That's why after finishing school, she went straight to Hamburg, where she studied illustration at the HAW. To satisfy her second passion, nature, she followed that with a bachelor's degree in biology. As a freelance illustrator, she loves combining both interests. She finds inspiration travelling all over Europe with her partner, campervan, and dog Nala.
