Magical adventures full of original and fantastic concepts, friendship, and a dash of humour.

Imagine there were not only used bikes and computer games for sale online but also real magical tools. This is what Magic Advertisements offers.

A magic scavenger hunt through Linneberg! Oskar is thrilled because the victory could save his family. But unfortunately, there are many opponents and he has to belong to a clan in the online portal Magic Advertisements to even participate. When a spot with the Seething Beauties becomes available, Oskar senses his opportunity. However, the girls don't want any boys in their team. This makes things more complicated, but not impossible!
